IT'S RUDE NOT TO STARE

The picanto makes no excuses for its eye-catching design. It's meant to be stared at, desired and admired. It's obviously part of the new breed of Kia's with the distinctive tiger-nose radiator grille. The picanto's unique personality is reflected in distinctive design elements like the side character lines and the emphasised shoulder lines. The 15-inch alloy wheels* make sure the picanto is as good-looking driving off as it is standing still. There are three new picanto derivatives, and all are positively awesome: the 1.0 picanto, the 1.0 picanto LX and 1.2 picanto EX.

*ONLY ON 1.2 EX MODEL

"It's meant to be stared at, desired and admired."

SECOND IMPRESSIONS ARE ALSO LASTING IMPRESSIONS

Passengers will stare as much as pedestrians; the interior is as awesome as the exterior. Pretty as a picture, useful as an iPad; the picanto is also highly functional. There's a place for all round air-conditioning and a tilt-adjustable steering column. A parcel shelf, luggage floor box and seat back pockets make sure there's a place for everything else too. The 1.0 LX (1.0 litre) and 1.2 EX (1.2 litre) models also feature front electric windows, front fog lamps, and a rear wiper. A standout feature is the automatic light control with escort and welcome home lights. If you test-drive a competitor's car don't bother looking for this feature, they won't have it. Awesome is only in the picanto. The EX model makes life easy with electric side mirrors and rear windows. It's also easy on the eye with a leather-wrapped steering wheel, gear knob and muscular side sill moulding. The EX model also allows a little more sunshine into your life with an optional sunroof.

While others hear you whiz by, you can listen to the MP3/CD/Radio audio system. If that's not enough, you can also plug in your iPod via our AUX/iPod/USB connector. While your ears concentrate on the music, your eyes concentrate on the road. That's why the EX model features remote audio controls on the steering wheel and a hands-free Bluetooth system.

Our ergonomically designed seats and roomy interior ensure that the picanto is awesome no matter your shape or size. The split-folding rear seats mean that the picanto is also awesome no matter the size and shape of your shopping.

"Audio controls on the steering wheel and hands-free Bluetooth system."

"All picanto's come standard with **ISOFIX** child seat anchors."

SOME AWESOME FEATURES EXPLAINED (S.A.F.E.)

ABS isn't just an abbreviation of Anti-lock Braking System. It's one of the many ways that the EX model keeps you safe when urgent braking is required. In these situations another abbreviation, ESS (Emergency Stop Signal)*, causes the brake lights to flash three times to warn motorists behind you. Then you hope their safety mechanisms are as awesome as the picanto's. 3-point seatbelts and a driver airbag is standard on all models, while a passenger airbag (standard on the LX and EX models) further enhances your safety in the event of a collision. *Only on 1.2 EX model

Not all collisions can be avoided. That's one of the unawesome facts of life. But even here the picanto makes life easy and preservable. On the outside the picanto's strong body shell absorbs and disperses collision forces before it can do major harm to the occupants. The picanto takes the hits so that you don't have to. Children are even more vulnerable to severe impacts than adults, which is why all picanto's come standard with ISOFIX child seat anchors. A car this safe needs to be kept safe from theft too. That's why an alarm, immobiliser and central locking are standard features on all new picanto's. The picanto is about being positive though. So enjoy its best standard feature: awesomeness.

0-AWESOME IN 1 SECOND

All it takes is the turn of a key. Awesome performance is that easy to experience, but the essence of this lies in the hours of intense research and innovative technology ensuring the best possible driving experience. The new picanto is available in two engine derivatives: a zippy 1.0 litre and an even zippier 1.2 litre. The 1.0 litre engine delivers 51kW of power at 6 200 rpm and 94Nm of torque at 3 500 rpm. The 1.2 litre engine delivers an impressive 65kW of power at 6 000 rpm and 120Nm of torque at 4 000 rpm. As good as the engine is, there's no reason to hear it when you'd rather be listening to your passengers or the radio. Luckily the clever folks at Kia have inserted panel sound absorbers, larger hydraulic mountings and various sealing mechanisms to decrease interior noise.

Fully independent front suspension, a torsion beam axle, enlarged caster angle and motor-driven power steering all contribute to an enjoyable ride and superb handling. You can also choose how to control the picanto's power, it is available with either manual or automatic transmission.

WHATEVER COLOUR YOU CHOOSE, YOUR PICANTO WILL BE GREEN

Building awesome cars is what we do, but we couldn't do it without taking the well-being of our planet into consideration. The new picanto offers excellent fuel economy and ultra low CO₂ emissions. Try these numbers on for size. The 1.0 litre manual engine achieves 117g/km CO₂ emissions with a combined fuel economy of 4.9l/100km.* The top of the range 1.2 litre manual engine achieves equally frugal consumption and CO₂ emission figures (5.0l/100km* and 119g/km).

All new picanto's with manual transmissions come standard with a gear shift indicator. It's highly visible on the instrument cluster and encourages economical driving by prompting you to change gears at the optimum point in the rev range. It's a bit like a back seat driver in that respect, but the result is minimised fuel consumption and lower CO₂ emissions.

*Combined fuel consumption figures are calculated according to ECE Directive 80/1268/EEC. Actual fuel consumption achieved may vary based on factors including vehicle load, ambient temperature, traffic conditions, driving style and altitude.

green is awesome

“The new picanto offers excellent fuel economy and ultra low CO₂ emissions.”

“Building awesome cars is what we do.”

THE POWER TO SURPRISE™

Kia Motors Corporation - a maker of quality vehicles for the young-at-heart - was founded in 1944 and is Korea's oldest manufacturer of motor vehicles. Over 2.1 million vehicles a year are produced in 13 manufacturing and assembly operations in eight countries which are then sold and serviced through a network of distributors and dealers covering 172 countries. Kia has over 44 000 employees worldwide and annual revenues of over US\$20 billion. It is the major sponsor of the

Australian Open and an official automotive partner of FIFA - the governing body of the FIFA World Cup™. Kia Motors Corporation's brand slogan - "The Power to Surprise™" - represents the company's global commitment to surpassing customer expectations through continuous automotive innovation.

BEFORE YOU GET INSIDE A PICANTO, GET INSIDE OUR HEADS

The new picanto was born from a simple idea. We believe that compact should be awesome. And that an affordable car should have awesome features and technology. We've completely redesigned the picanto around this belief, resulting in the all-new and all-awesome picanto. The styling is uncompromised and bold, with unique and distinctive elements. It's raised the level of the small car segment, so prepare to enter Level: Awesome.
